Got After the Stock Market Yesterday Hard,

BUT IT KEPT A FIRM TEMPER.

Resisting the Onslaught-Money was low [All Through the Day, and Closed Offered at Seven and One-Half Per Cent.

Commercial Resume. Special to the Gazette. NEW YORK, Jan. 29.—Money closed t 134 per cent the lowest. The highest Exchange, steady. Posted rates, \$4 85@

4 87.
Silver, 91%.
Sugar—Raw, quiet but steady; refined,
dull and unchanged.
Wheat—Options dull to-day, prices irregular. There was no feature. Prices
closed only slightly changed, spots dull.
Wool—Steady for fine grades, but otherwise casy. Fall Texas, 16620c.
Cotton—Spot lots dull; middling uplands, 71%c. Futures closed steady.
Coffee—Spot lots quiet; fair Rio cargoes
10%c. Futures steady.

Grace—Spot lots quart; har his cargoes 6%c. Futures steady.

Hides—Steady. Buenes Ayres, dry 13@ 3%c; dry Texas, 10@12c.

Some departments of the dry goods marter report a fair amount of trading, but tothing unusual. Prices fairly sustained.

Bonds dull.

Etab. Department Graff. 773/

Utah, Denver and Gulf, 77%. Atchison general mortgage, 83%. Atchison incomes, 63%. St. Louis and Southwestern Ps, 77. Texas and Pacific Ps, 83%. Texas and Pacific Ps, 30%.

Money and Exchange. New York, Jan. 29.—Monoy on call easy, 14 dec. Closed, offered 134c.
Prime mercantile paper, 4@534c.

Stocks and Bonds. New York, Jan. 29.—The stock market gain showed the effects of continued ham-bering by the bears and allies, but a firm emper was maintained during the greater portion of the day, and notwithstanding the pressure of the professional element, specialties yielded only slightly, closed quiet and steady to firm.

Railroad bonds fairly active.

DUN'S REPORT.

Larger Business but Prices as a Rule Lower.

MONEY IN VERY GOOD SUPPLY

At All the Money Centers-Collections Good-The Iron Trade is Somewhat Depressed by the Heavy Output. Weekly Review of Business.

New York, Jan \$9.—R. G. Dun & Co.'s veckly review of trade says: It is unde-table there exists a considerable feeling of isappointment. More business but lower prices seems to be the rule. That he volume of trade is gradually are been the dullest, there seems to be no doubt, but in the usual number of cases increased sales appear to be a result of some yielding in prices, so the average decline in prices in all com-modifies during the pust week has been more than a half of I per cent. There was good business done in iron, but the increase in the weekly output, since the un-precedented report of December 1 has weakened the price. Bar iron is dull at

wenkened the price. Bar from is dun at Philadelphia and weak at Chicago, and the market for plates is demoralized by the large production, while some structural miles are short of work.

Copper is lower at 10.8c, with moderate exports and great output. Tin 1/2c lower, but lead stronger. Coal unsettled. Reports from other cities generally indicate a gradual increase in the volume or frade. In iry goods there seems to be rather less activity as to cotton goods, and clothlers are conservative and waiting for indications of the popular fancy, and hence the men's wear woolen trade is porplexing. There is a better feeling in the wool market, how-ever, at New York and Boston, and the ontinuing sales prove that manufacturing ins by no means ceased. Cotton is 3g cent lower, while both

eccipts and exports fall short of those of ast year for the same week. Indications till point to a very large crop.

Corn is 1/2 cent higher, with heavy receipts at the West, and pork products are a

wheat is 'ic and outs 'ic lower than a week ago. Wheat receipts have been quite large, while exports for the last week or two have somewhat declined. Oll is nearly a cent lower and coffee 'ic stronger.

Money markets throughout the country or markets throughout the country or markets and supplied but in rear be-

Aloney markets throughout the country are unusually well supplied, but in part because the demand is only moderate.

Collections are generally improving or decidedly good. The course of foreign trade makes the absence of gold imports gomewhat noteworthy.

Reports from New York for the four weeks of January have been \$11,143,000, which is much larger than the same period last year, while imports there has been a

last year, while imports there has been a slight decrease, which would point to an ex-cess of exports over imports amounting to about \$22,000,000 for the month, against

SEC.000,000 fast January.

Business fallures occurring throughout the country during the last seven days number 297, compared with a total of 328 last week. For the corresponding week last year the ligures werd 320.

STILL PUSHING.

A Number of Residence Lots Sold as Velusco-Marine Intelligence.

Special to the Gazette
VELASCO, TEX., Jan. 29.—The steel reve nue cutter "Galveston," Capt. F. M. Mun-cer, is here from a cruise as far south as the Rio Grande. Her commander, and report as to justentability. Cor-invited. Mention the Fort Worth water port people like them very much, dethat is placed be per. like True Gasting classes. Read it all the time and your reward will be great.

Vessul comes to the britos, for the deep water port people like them very much, dethe cutter's name, which suggests nine thies of sub-marine sand plateau, misnamed a bar, that is widening at the rate of the feet annually and on which Velasco's is ward will be great.

than nine feet, once struck bottom and came very near being pounded to death came very near being pounded to death with all on board.

The steamer Alice Blair is under repairs here in consequence of the damage she re-ceived while aground in Galveston bay re-

centred while aground in Galveston bay recently.

The smaller steamer, Emily P., has been put on the Blair's run to the Island City.

News was received here yesterday that a company had been privately formed in Galveston for the purpose of puttings scazoing vessel between that port and Velasco. The object of this move is evident—the former city's merchants don't want Houston to grab too much of Velasco's trade over the connecting railroad just completed. The real estate exchange was in session all yesterday examining plans and specifications for their three story brick building. The steamboat, Hiawatha, brought a large number of passengers from Columbia depot last night. They were from Contral and Northern Texas, Louisiana, Mississippi, Alabama, Kansas and Missouri.

A majority of sales during the past week

A majority of sales during the past week were residence lots along the railroad and in the north end of the city, though three firms of real estate men have disponderm and orchard lands within a few

Fresh ripe tomatoes at Turness

Fire at Birmingham. Correspondence of the Gazette.

New Bramingham, Tex., Jan. 28.—This norning about 9:30 o'clock a building on Dallas street, just outside the fire limit was

burned.

The house was the property of Major Joe I. Baker—was constructed for business purposes, but was serving as the residence of S. E. Hart. The fire originated from a defective flue through the ceiling. The entire household effects were saved from destruction. The building was valued at about \$400. No insurance.

Burned to Death. NASHVILLE, TENN., Jan. 29.—At 10 o'clock last night the residence of R. F. Bell, eight miles from this city, was burned to the ground. A life went out in the flames.

Mr. and Mrs. Bell were awakened by the screame of their twenty-two year old son. Thomas, who occupied a room just above the one they were in. For some time Thomas had been demented, and his parents thought the screaming was the ravings of his mind. Then the crackle of the flames reached them, followed by the flames reaching down through the ceiling. Mr. Bell hurried his wife out of danger and rushed to his son's room. As he opened thedoor the floor of the room fell through, and Thomas lay in the embrace of the de

structive demon.

The house was destroyed. Loss, \$1200. This morning the bones of the young man were taken from the ashes.

Paradise Gin Burned.

pecial to the Gazette. DECATUR, TEX., Jan. 29.-A gin belong ing to Shean & Blackford, at Paradise, was burned at a late hour last night. Loss es-timated at about \$2000.

Loss at Comanche.

Special to the Gazette. COMANCHE, TEX., Jun. 29.—Yesterday norning between 2 and 3 o'clock fire was liscovered in the dry goods store of Mr. F. Green, which was a total loss of \$5000.

The damage to the Two Johns saloon, in an adjoining building, was \$300. No insurance. Cause of fire unknown.

Do you wolle your own bread and cakes? If so buy Golden Wedding flour, Flower seed at Turner Dinguis

ON 'CHANGE.

Spot Cotton Closed Lower at Liverpool.

FUTURES LOSE A FEW POINTS.

ing Lower-Corn and Oats in Sympathy-Hog Products Some Weaker.

Exports of wheat from San Francisco last week were four cargoes.

The Rice trust deal at New Orleans is said to have been consummated. Chleago is complaining of scarcity of cars for Eastern shipment.

The quantity of flour and wheat on pas-sage to European markets during the past vock increased 160,000 bushels, and corn 960,000 bushels. The Liverpool Corn Trade News esti-nates the weekly requirements of maize in

the United Kingdom and on the continent to be 2,320,000 bushels. The four Atlantic ports cleared yesterday 295,550 bushels of wheat, 32,283 packages of flour, 319,000 bushels corn, 33,018 bushels of oats and 16,841 bushels of rye.

Cornegie brothers have signed a contract for the delivery to the bessemer works of upward of 1,000,000 tons of iron ore.

The Indian crop advices report the condition of wheat good on 5,000,000 acres, discouraging on 14,000,000 acres, while there are no returns from 10,000,000 acres.

Bradstreet's reported a decrease last week of 403,000 bushels in wheat stocks east of the Rocky mountains, a decrease of 633,000 bushels west of the Rockies, a decrease of 516,000 bushels in corn, an inrease of 319,000 bushels in oats.

The cotton mills in the Southern states in 1890 consumed 600,000 bales, or one-court of the entire quantity worked up in this country that year. This is a gain over 1890 of more than 400,000 bales. The production of fron ore in the South in 1891 was not fourth of the output of Creat British The English look with envy at the remarkable growth of the coal output of this country. A comparison of the number of square miles of coal discovered in the two countries gives for the United States 192,000, while England has 11,900 and Nova Scotia 18,000. In 1800 the United States mined 9,389,330 tons of anthracite coal and in 1891 45,540,970 tons. The showing for bituminous for the same years gives for 1800 5,775,070 tons and for 1891 94,490,000

In a review of the wool trade the past year a prominent London firm says: It would appear the laportations of Austra-lian and Cape wools into Europe and America had increased from 206,000 bales in 1800 to 2,005,000 bales in 1891, and that the value had increased from £6,850,000 to £27,057,000, so that while quantity has increased over seven and a half fold, values have increased only four fold.

From the statement of the imports and exports of domestic merchandise of the United States for the month of November United States for the month of November last and the previous eleven months, it seems that for the month, in comparison with the same month last year, the imports increased \$67,144, and for the eleven months decreased \$3,727,489. The imports of goods free of duty increased for the month \$5,339,256, and for the eleven months \$125,811,070, while the goods subject to duty decreased \$4,672,112, and \$129,538,539 for the same periods respectively.

the same periods respectively.

The board of trade returns of the United Kingdom for the past year do not show that expansion that has been usual for some expansion that has been usual for some years past. The total imports for the year amounted to £455,691,600, or an increase of 3.5 per cent, while the exports of domestic produce amounted to £247,372,600, or a datorise amounted to £247,372,600, or a datorise of 6.2 per cent as compared with the previous year. The increase on the imports is wholly made up of additional receipts of breadstuffs, cotton—and wool. Of cotton

the increase amounts to \$7,500 tons. The United States sent 187,500 tons, India 62,200 tons and Egypt 25,000 tons. In weel the increase amounts to 38,038 tons. The falling off in the exports has extended to almost every branch of the manufacturing indus-try. This is in a measure accounted for by lower values of manufactured goods.
